Crystal clear, brilliant and true-to-life

- Details and colours are sharp and true to life.
- Significantly improved colour reproduction compared to previous generation.
- The advanced option for HD resection of BPH and bladder cancer.

HDTV 1080 Image

VISERA ELITE Imaging Platform

HD camera head with NBI – a unique combination for bladder cancer resection

- Combination of HD and NBI delivers 20% brighter light compared to prior camera head systems.
- Potentially higher and improved detection rate of carcinoma *in situ* due to improved visibility of vessels on the mucosal surface.
